2015©Copyright Shin Heung Precision Co. Ltd. / Seoul Office (SAM4S Office)

Company Overview

As a store automation products manufacturer, SAM4S aims to achieve the best quality products and make the most flexible and reliable products at all times. We have knowledgeable human resources with more than 31 years of experience in the store automation field.

We now produce the most sophisticated and diverse products for the world-wide market. Our store automation products are extensively used in over 60 countries.

We are committed to developing future models that provide innovation and solutions to meet the demands of fast moving markets.

What is SAM4S?

SAM4S

SMART

SAM4S always provides smart terminals with useful features

SAFE

SAM4S' reliable terminal makes sure that your assets are in safe hands

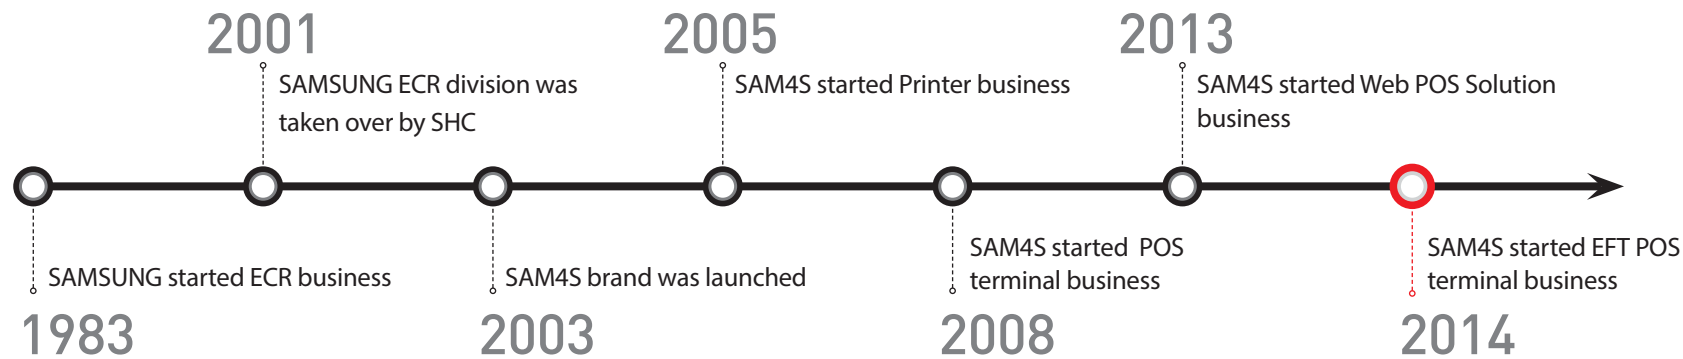

SILENT

SAM4S' silent terminal improves the ambiance of your shop

SPEEDY

SAM4S provides speedy return of investment

History

SAM4S has 31 years of development experience for store automation products. SAMSUNG ECR division was taken over by SHC in 2001, but the members of the R&D laboratory at that time are the core members of SAM4S R&D Lab now. The know-how of SAMSUNG ECR production was handed over to SAM4S.

SAM4S specializes in R&D and SAM4S's holding company, SHC specializes in production. SHC has manufactured continuously since 1968 and SHC has cooperated with SAMSUNG ECR since 1983. SHC has every facility for the development of SAM4S products and creates all of SAM4S products internally.

Every SAM4S product has environment compliance testing before SAM4S starts mass production. SAM4S implements quality inspection to every single finished product. SAM4S Supplies all service parts from individual parts to multiple component assemblies for all their products. We supply whatever the customer needs.

SAM4S has been a specialized in general store automation equipment supply for many years. As the result, SAM4S has ECR, POS terminal, Android POS terminal, Receipt Printer, EFT POS terminal, Drawer, and various peripherals in the line-up. Now, SAM4S provides a one-stop supply service to SAM4S customers.

TITAN Series

Introduction

The TITAN Series high performance POS, is the the most powerful terminals in the SAM4S line-up. It is suitable for the most demanding POS applications, such as convenience stores, franchise specialty stores, hypermarkets and franchise food service.

Special Features

- Solid AL Die casting Frame Construction
- Industrial LED Display
- Upper I/O Interfaces Panel For Easier Control
- Built-in Power Adaptor
- Easy to Access Motherboard (TITAN-500 only)
- Waterproof Front Panel (True Flat only)
- PCAP Touch Option

SPT-4800 Series

Introduction

The SPT-4800 Series is designed to meet the needs of the hospitality industry, especially table service restaurants. Installation and maintenance is simplified with a tool-less design. Installation engineers can quickly install or replace popular POS options and peripherals.

Special Features

- Selectable CPU Options: Intel Celeron Mobile 1037U and Atom D2550
- Tool-less Design Provides Easy Installation and Maintenance
- VESA Wall Mount for Use as an Ordering Terminal
- Waterproof Front Panel (True Flat only)
- PCAP Touch Option

SAP-500 Series

Introduction

The SAP-500 Series is an ECR-style All-in-One Android POS terminal. It features a 9.7" touch display for operating the POS solution by touch. It provides a large keyboard to support frequently used PLUs, plus a built-in printer and cash drawer. The SAP-500 Series will run many Apps compatible with Jelly Bean 4.3 OS. The SAP-500 Series is a powerful platform for cafeteria, food court or convenience store applications.

Special Features

- Android Jelly Bean 4.3 OS
- Large Keyboard for PLU Shortcut Keys
- Ports to Connect Scanner or Remote Printer
- Cost Saving POS Bundle

9.7" Touch Display

3" Thermal Printer

Built-in MSR

Large Size Drawer

Built-in 16 Character x 2 Line LCD

NEW

TAB-15 RETAIL HOSPITALITY

Introduction

TAB-15 is a compact Web POS solution with a retail/hospitality POS software application. Up to 6 smart devices can access Tab-15 via a Web browser. Compact economic design saves on space and makes your store more simple and smart. Tabby solution services POS software through the Web browser for an easy and convenient operation.

Special Features

- Up to 6 Smart Devices can access Tabby through the Web browser
- 4 Serial ports can connect Various Peripherals
- Compact Design
- Program Maintenance is Simple and Intuitive
- Access Reports Remotely or at the Store

※ PC tablet is not included. Please purchase PC tablet separately.

BEST**ECR**

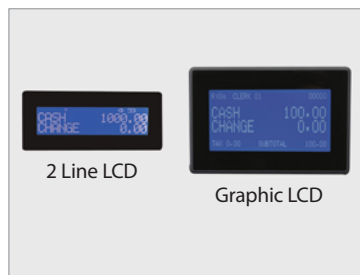

NR-500 Series

Introduction

New to the SAM4S ECR line-up, the NR-500 Series is the most strongly featured low and middle end SAM4S ECR. It provides an advanced user interface, large data memory size, I/O interfaces, and an LCD front display. This model is designed to lead the basic-ECR line-up in non-fiscal ECR markets.

Special Features

- Available in both Retail and Hospitality Versions
- User Friendly Interface for Easy Operation
- Supports Non-Alphabetic Languages
- Electronic Journal Data keeping using Micro SD Card inside
- Easy Data backup, Restore and Report polling using SD, USB, PC
- Data Management and Programming by Ethernet Based PC Utility (Back office)

Supports both
2 Line LCD, Graphic LCD

ER-260EJ

Introduction

The ER-260EJ is the next generation model of popular ER-260. It provides more I/O interfaces, more communication interfaces, more data/fiscal memory and a more advanced user interface. The ER-260EJ is the recommended solution for entry level fiscal applications.

Special Features

- Available in both Retail and Hospitality versions
- User Friendly Interface for Easy Operation
- Electronic Journal Data keeping using Micro SD Card inside
- Easy Data backup, Restore and Report polling using SD, USB, PC
- Data Management and Programming by Ethernet Based PC Utility (Back office)

BEST**PRINTER**

GIANT-100

Introduction

GIANT-100 is a stylish 3" thermal printer, with small and distinctive design compared to other receipt printers. The GIANT-100 unique look and style will blend into any interior design and is ideal where space is limited. The GIANT-100 "Flagship" model points the direction which other receipt printers will follow in the future.

Special Features

- Faster speed 250mm/sec
- Compact Size
- Various Interfaces USB + Serial(25Pin), USB + Serial(9Pin + RJ-45), USB + Wi-Fi, USB + Serial + Ethernet(3-Combo)
- Durable Ceramic Auto Cutter
- Jam Free Design
- Tool-less Design

SHC-350

Introduction

The SHC-350 is an EFT POS terminal with 3" internal printer. The SHC-350 features a 4.3" color LCD, more vivid and wider than our prior model. In addition, its distinctive and elegant design and compact size sets it apart from competitive products. It is the smartest EFT POS terminal in the market.

Special Features

- Colorful LCD Display
- Various Interfaces: USB ('A' Type), Serial Ports (4), Ethernet, Telephone Ports (2) and Drawer
- Faster speed 200mm/sec
- Large Internal Memory Size (128Mbyte)
- Jam Free Design
